UI TECHNOLOGIES:

- HTML • CSS • JavaScript
- Bootstrap

CLOUD TECHNOLOGIES:

- AWS Lambda • API Gateway • S3
- Route 53 • Step Functions • EC2

I hereby declare that the information provided in this document is true to the best of my knowledge and belief.

Thanks

Prasad Ginnarapu

EXPERIENCE

OJAS INNOVATIVE TECHNOLOGIES | SOFTWARE ENGINEER

April 2021 - Present | Hyderabad, India

- Developed Process Automation solutions.
- Have good knowledge in developing Full stack Web based Applications.
- Implemented REST APIs.
- Work Experience on Agile Methodology.
- Have good communication and interpersonal skills
- Engaged with various Ojas clients, gaining expertise through involvement in diverse projects.

PROJECTS

#1 RT360

CLIENT : Union Bank of India

RT360 is a transaction tracking application where the suspicious transactions are triggered based on specified rule and displayed to the particular branch, zone, and regional offices. In this application, my contributions include:

- Developing business logic using user stories.
- Conducting UAT testing.
- Migrating a legacy application into a Unified Application.
- Implementing ETL processes.
- Providing production support.

#2 DIGIT POLICY ISSUANCE AND CANCELLATION

CLIENT : Go DIGIT General Insurance

Go Digit is an insurance firm that offers policies for commercial, health, travel, and other categories. With a focus on contactless experiences and streamlined processes, Go Digit enables instant policy issuance, renewal, and cancellations, eliminating the need for paperwork and ensuring efficient customer service.

#3 DIRGAYUSH

CLIENT : Wealthzone Technologies

The goal of this project is to create an e-commerce application for online product sales. Vendors can list and sell their products, while customers can browse the catalog, add items to their cart, and choose between Cash on Delivery and Online payment methods. Shipping details are provided to ensure smooth delivery of products to customers' homes.

#4 AFFINITY PORTAL

CLIENT : Liberty General Insurance

Affinity portal is a web application that serves multiple insurance firms such as Muthoot, Manappuram, ICL, SREI, and more. These firms register on the platform to offer insurance policies covering health, home appliances, business, jewelry, and other areas. Customers can conveniently explore policy products from various insurance companies in one place and select their preferred policy by providing their details.
